2 / SMART BOOSTER 125

37

The advanced and low-cost lubrication solution, ideal for applications subject to temperature variations.

SMART BOOSTER: the low-cost model whatever the temperature.

A • DESCRIPTION

SMART BOOSTER, the first electrochemical Automatic Lubricator equipped with a reusable control unit, providing measured flow independent of the ambient temperature.

Guaranteed continuous lubricant flow, with the correct volume for your application, regardless of temperature.

This smart Automatic Lubricator is equipped with a temperature probe which adjusts pressure to distribute just the right amount of grease selected at start-up.

The duration of distribution is easy to adjust (from 1 to 12 months) simply by selecting the appropriate period on the control unit.

The control unit can be re-used several times, only the **125 cm³** grease cartridge requires replacement.

B • APPLICATIONS

Designed for the single-point lubrication of plain or rolling element type bearings, open gears, chains, ball screws, linear guide bars, etc. This model is ideal for environments facing substantial temperature variations (e.g: fans mounted under roofs) or requiring intrinsic safety (e.g: petrochemical industry).

C • CHARACTERISTICS AND BENEFITS

Adjustable between 1 and 12 months using the re-usable touchpad control unit, with an ON/OFF function.	Flexible, precise and multipurpose, reducing operating costs while improving the lubrication of rotating parts.
Integrated temperature compensation with a wide range of service temperatures.	- High level of reliability: controlled grease flow, unaffected by temperature for the entire duration of distribution. - Universal usage.
Compact design with reinforced flange.	Robust, easy to install, even in confined locations.
Certification   I M1 Ex ia I Ma II 2G Ex ia IIC T4 Gb II 2D Ex ia IIC T 135°C Db ZELM IO ATEX 0434X	Can be used in explosive areas.
Protection IP65.	Can be used in many dusty and humid environments.
Transparent tank in high density polyamide.	- Easy to check grease level. - Can operate in all positions.
Flow limiter valve integrated in the oil version.	Simple installation.
